

Designed for Engineers & Diploma Candidates in Architecture,
Civil, Mechanical, and Electrical Fields.

ABOUT US

About BIM Professionals

At BIM Professionals, we specialize in empowering engineers and diploma holders in Architecture, Civil, Mechanical, and Electrical fields through cutting-edge BIM (Building Information Modeling) training. Our programs are designed to equip learners with industry-relevant skills, ensuring they are ready to thrive in a competitive global construction and design market.

COURSES

Courses We Offer

01

BIM ENGINEER / MODELER – MEP COURSE

Start your BIM journey from the ground up and become industry-ready in just 3 months. This program equips you with smart 3D modeling, coordination, and collaboration skills, paving the way for a fulfilling career in construction.

02

BIM ARCHITECTURE

Unlock the potential of BIM for architecture within 3 months. This focused course helps you develop essential design skills and hands-on experience, preparing you to thrive in the ever-evolving world of architectural innovation..

03

BIM COORDINATOR PROGRAM

Designed for experienced BIM Modelers, this program strengthens your ability to coordinate effectively. Learn advanced integration methods, streamline project workflows, and drive successful outcomes through collaboration and process optimization.

04

BIM MANAGER PROGRAM

Step into leadership with this advanced program. Gain in depth knowledge of BIM management, sharpen decision making skills, enhance coordination, and lead teams confidently to deliver high-performing BIM projects..

05

BIM DESIGN MASTERY (MEP)

Advance your expertise in MEP design with our specialized mastery program. Learn to utilize the latest industry technologies, tools, and workflows to deliver precise, efficient, and seamless project execution.

06

BIM CORPORATE TRAINING PROGRAM

Empower your organization with customized BIM corporate training. Tailored for efficiency and innovation, this program enhances team skills, promotes seamless integration, and equips your workforce with cutting-edge Building Information Modeling practices for superior project success.

WHY CHOOSE US

Why Choose BIM Professionals

Our BIM programs are crafted to bridge the gap between academics and industry needs. By joining us, you gain:

01

Career Growth & Stability

BIM certification opens doors to roles that offer up to 50% higher earnings compared to traditional engineering pathways.

02

Secured Employment

Our learners step into a stable, innovation-driven environment where BIM professionals are in constant demand.

03

Industry Relevance

With 90% of AEC companies relying on digitization, BIM skills are the future of design and project execution.

04

Future Prospects

Move beyond site-level jobs into design, planning, and project management roles with strong career growth potential.

OUR COMMUNITY

Our Learner Community

We welcome aspiring architects and engineers specializing in Civil, Mechanical, and Electrical streams, along with diploma holders. With a simple and practical learning approach, our course supports beginners in building a strong foundation for their professional journey in BIM.

Eligibility

- ✓ The BIM program suits every professional in the AEC sector.
- ✓ Students in their final academic year
- ✓ Fresh graduates from Architecture, Civil, Mechanical & Electrical fields
- ✓ Diploma candidates eager to upskill in BIM

OTHER ONLINE COURSES

Extra Online Courses

- ▶ Revit facade
- ▶ Civil 3D
- ▶ Tekla
- ▶ Sketch up
- ▶ 3ds max
- ▶ Lumion
- ▶ AutoCAD

OUR METHODS

Our Learning Approach

Guidance from Industry Experts

Gain exclusive insights from experienced BIM professionals who have worked with leading AEC firms. Our mentors ensure you learn the most practical and industry-relevant skills.

Hands-On Practical Training

We focus on “learning by doing.” Our programs include real-world BIM projects, helping you build a strong portfolio that meets industry standards and sets you apart.

Skill Enhancement for Professionals

Develop advanced software and technical skills essential for BIM careers. Our training ensures you are fully prepared to tackle professional challenges confidently.

Career Support and Mentorship

We provide dedicated career guidance, including CV building, portfolio enhancement, and LinkedIn profile optimization. Our team supports you throughout your job placement journey, ensuring you are ready to step into your dream role.

OUR SUPPORT

Industry Project

Every learner completes an Industry Project at the end of the course, **solving real problems, working with teammates, following project leads,** and learning from professional feedback—just like in real companies. Along with technical skills, we also provide Career & Placement Support through mock interviews, resume/portfolio guidance, **step-by-step job application support**, and placement opportunities with reputed companies and global firms.

INTERNSHIP OPPORTUNITY

Internship with Nadco Ventures

Students also gain practical exposure through a **1-month internship at Nadco Ventures**. This internship provides :

- ✓ Real work experience
- ✓ Hands-on learning
- ✓ Since Nadco Ventures is part of our group, students benefit from a supportive environment with industry practices.
